PRESS RELEASE & INTERVIEW QUESTIONNAIRE

**Where To even start...How did you come up with Naughty Hottiez Inc & exactly what is it? Is it "porn"?? come on tell us...**

To answer the last question first it isn't porn, it's adult entertainment, but yes in lamens terms it's porn (laughs modestly). How I came up with "Naughty Hottiez"? Well it would be almost 10 years ago from the month maybe more... an it took place in a basement, well the concept & idea I mean, an I wasn't alone in the thought process if you get what I mean...

(Sighs Heavily) I'll give you the short version of a very long story, I used to smoke alot of weed & (Marijuana) when I say alot, I emphasize "ALOT" (Laughs Histerically) ya know pretty much a everyday stoner with a very close friend of mine practically someone who I'd call a "brother because I've known him so long, anyway we were stoned alot of the time late at nights & you remember those old commercials showcasing "Girls Gone Wild" infomercials I think they called them and GGW founder Joe Francis?? We used to joke & point at him like what a guy to create something like that,"I bet he's super paid" we used to say... Don't quote me on that, anyways we were like we can do that...an mind you at this time in 2011 or 2012 myself & my friend were happily married or well I think he was & I was engaged. Trust me our wives didn't like the idea very well...
